

ILM LEVEL 3 CERTIFICATE IN LEADERSHIP & MANAGEMENT PRACTICE IN THE CONSTRUCTION & BUILT ENVIRONMENT SECTOR 9 DAYS

Who is the course for:

The Level 3 Certificate is a nationally recognised Leadership qualification for construction site managers and supervisors seeking to more effectively lead, supervise, and safely manage staff within the construction/built environment industry. The qualification can be used in support of obtaining the Academically Qualified Person (AQP) card through the CSCS scheme. The course is eligible for 2 x £600 grants from CITB*.

By the end of the course participants will:

Have a solid grounding in the operation of construction projects and programmes and know how to create a safe and fair culture where quality, innovation and team working thrive. The course contains all of the key components to increase confidence with a construction management role, including how to plan and implement projects effectively, identifying opportunities for increased margins and improvements in output whilst maintaining safety and quality.

By the end of the course delegates will be able to:

- Recognise their own leadership style and know when and how to adapt this according to different situations to maximise results on site and with the wider supply chain.
- Engage with individuals and the team, setting clear objectives and standards for both productivity and behaviour.
- Understand the role of and techniques to manage Quality and Compliance and Health and Safety within the industry.
- Understand what is required to both manage and lead site safety and to establish and maintain positive and responsible work place behaviour to maintain a safe and productive working environment
- Identify areas where margin can be enhanced and have an improved understanding of the commercial aspects of the construction industry and wider built environment.
- Have learned a range of techniques to plan, analyse and evaluate projects and to overcome barriers to progress
- Identify key stakeholders and supply chain partners and adapt communications to influence positive outcomes.
- Understand and plan their own personal and technical development and the expansion of their knowledge to meet the future needs of the industry.

Why choose Challenge:

Nine contact days plus support throughout your learning journey ensures you maintain momentum on the course with opportunity to meet other participants and hone your skills.

- Like minded participants all of whom are sponsored by their organisation ensure you will have the opportunity to build your network and share and compare against best practice.
- Challenge has direct claim status from ILM for level 2 to level 7. This is awarded only to those centres who have demonstrated consistently high standards in design, delivery and assessment over a number of years.
- Challenge has been the largest centre for ILM qualifications in the East Midlands since 2013, registering more delegates onto ILM programmes than any other centre.
- We are an approved supplier of ILM programmes for many large organisations (which include large Construction organisations) who nominate staff members to access our training programmes year on year.
- Assistance is available through all common media channels to help with any aspect of the course content or assessment.
